

EXECUTIVE PROFILE

Steven C. Dover, P.E. Vice President and Principal

Steven Dover is a principal of Britt, Peter and Associates with primary responsibility for managing the structural engineering component of the firm's business. A Registered Professional Engineer in 12 states, Steven is associated with an impressive portfolio of projects throughout the United States. Over the years, he has designed a significant number of restaurants, churches, schools, mixed-use, mid-rise and warehouse facilities. Steven's designs incorporate a variety of construction materials, including structural steel, cast-in-place concrete, masonry and wood. His expertise includes specific experience in designing buildings located in hurricane and earthquake-prone regions.
